HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation , i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

The Secretary of State shall publish all executive orders beginning January 1, 2003, pursuant to section 536.035.2, RSMo Supp. 2005.

EXECUTIVE ORDER

06-03

WHEREAS, according to the Centers for Medicare and Medicaid Services, healthcare expenditures in the United States totaled \$1.7 trillion in 2003; and

WHEREAS, according to the New England Journal of Medicine, 31 cents of every healthcare dollar spent in the United States goes toward administrative costs and other expenses; and

WHEREAS, a 2005 study by the RAND Corporation estimates that the U.S. healthcare system could save \$162 billion annually through the widespread use of healthcare information technology; and

WHEREAS, patient data is currently stored primarily in paper form and housed with individual providers, resulting in fragmentation of the healthcare industry; and

WHEREAS, individual providers have difficulty obtaining complete healthcare information in order to provide effective and beneficial treatment to their patients; and

WHEREAS, public health agencies are limited in their duties of disease surveillance, management and response capabilities by the current paper-based system for healthcare information storage and reporting; and

WHEREAS, there is a need to share healthcare information efficiently so that information is readily available to healthcare providers, consumers and public health agencies in order to make the best possible healthcare decisions; and

WHEREAS, healthcare information technology can improve patient safety and healthcare quality by reducing medical errors and adverse drug events through computerized physician order entry and E-prescribing and by facilitating better coordination of care through the availability of complete patient medical histories to multiple healthcare providers; and

WHEREAS, healthcare information technology can reduce healthcare costs through a reduction of duplicative medical tests, procedures and paperwork; and

WHEREAS, healthcare information technology has the potential to improve access to healthcare in underserved areas by supporting the advancement of telemedicine.

NOW THEREFORE, I, Matt Blunt, Governor of Missouri, by virtue and authority vested in me by the Constitution and laws of the state of Missouri, do hereby create and establish the Missouri Healthcare Information Technology Task Force.

The Task Force shall consist of fourteen (14) members appointed by the Governor. The Governor shall designate one (1) member to serve as Chair. All members shall serve at the pleasure of the Governor.

Members of the Task Force shall receive no compensation for their service to the people of Missouri.

The Task Force is assigned for administrative purposes to the Missouri Department of Health and Senior Services. The Director of the Missouri Department of Health and Senior Services shall be available to assist the Task Force as necessary, and shall provide the Task Force with any staff assistance the Task Force may require from time to time.

The Task Force shall meet at the call of its Chair, and the Chair shall call the first meeting of the Task Force as soon as possible.

The Task Force shall evaluate and make initial recommendations to me by July 1, 2006 on the following topics:

- Reviewing the current status of healthcare information technology adoption by the healthcare delivery system in Missouri;
- Addressing potential technical, scientific, economic, security, privacy and other issues related to the adoption of interoperable healthcare information technology in Missouri;
- Evaluating the cost of using interoperable healthcare information technology by the healthcare delivery system in Missouri;
- Identifying private resources and public/private partnerships to fund efforts to adopt interoperable healthcare information technology;
- Exploring the use of telemedicine as a vehicle to improve healthcare access to Missourians; and
- Recommending best practices or policies for state government and private entities to promote the adoption of interoperable healthcare information technology by the Missouri healthcare delivery system.

The Task Force shall prepare a final report and submit it to me by September 1, 2006.

The Task Force shall expire on December 31, 2006.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri, in the City of Jefferson, on this 17th day of January, 2006.

ATTEST:

Robin Carnahan
Secretary of State

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of the proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety (90)-day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

and transport fish, frogs, mussels, clams, turtles, crayfish, live bait, birds (except wild turkey) and mammals (except deer), and to sell furbearers taken by hunting. Fee: five dollars (\$5).

AUTHORITY: sections 40 and 45 of Art. IV, Mo. Const. Original rule filed Jan. 30, 2006.

PUBLIC COST: This proposed rule will cost state agencies or political subdivisions approximately eleven thousand two hundred twenty-one dollars (\$11,221) annually. See attached fiscal note for more information.

PRIVATE COST: This proposed rule will not cost private entities more than five hundred dollars (\$500) in the aggregate.

NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed rule with John W. Smith, Assistant Director, Department of Conservation, PO Box 180, Jefferson City MO 65102. To be considered, comments must be received within thirty (30) days after publication of this notice in the Missouri Register. No public hearing is scheduled.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

PROPOSED RULE

11 CSR 45-8.170 Accepting Checks

PURPOSE: This rule prohibits persons who have previously presented checks that remain unsatisfied from presenting additional checks for gambling purposes.

(1) No Class A licensee shall accept a check for cash, chips, tokens, tickets, or any other monetary instrument used for gambling purposes, on the licensee's premises from an individual who has previously presented a check to the licensee that remains unsatisfied after the check was presented to a financial institution for payment and the licensee was notified of the non-payment or rejection of the check. For the purposes of this rule, a "check" means a draft that is payable on demand and drawn on a financial institution, but does not include cashier's checks, money orders, traveler's checks, or drafts for cash advances on credit cards.

(2) A check is unsatisfied unless the check is accepted by the financial institution ordered in the check to make payment, the licensee or check guarantee service receives payment for the entire amount of the check, or a period of five (5) years has elapsed from the date the licensee was notified of the non-payment or rejection of the check. A check does not become satisfied when a licensee, its agent, or a check guarantee service forgives payment of the amount of the check, when a check guarantee service pays the amount of the check, or if the check is deemed not collectible for accounting purposes.

(3) If a Class A licensee uses a check guarantee service, the licensee shall require the check guarantee service to notify the licensee within seven (7) calendar days of the check guarantee service receiving information that the check was not accepted by the financial institution ordered in the check to make payment.

(4) Each Class A licensee shall maintain in its accounting department a returned check log listing all checks received on the licensee's premises, including any checks processed by a check guarantee service, for which the licensee has been notified of the non-payment or rejection of the check. The documentation notifying the licensee of the check shall be date-stamped with the current date promptly upon receipt. The Class A licensee shall include all such unsatisfied checks on the returned check log within three (3) calendar days from the date the licensee received notice that the check was not accepted by the financial institution ordered in the check to make payment, and shall make identification information of all persons who currently have an unsatisfied returned check on the returned check log available to all of its employees who accept checks described in section (1) of this rule.

(5) The returned check log shall contain the following information:

- (A) The name and address of the person who presented the check;
- (B) The date of the check;
- (C) The amount of the check;
- (D) The check number;
- (E) The date the licensee received notification from either a financial institution or check guarantee service that the check was not accepted; and
- (F) The date(s) and amount(s) of any payments to the licensee by the person who presented the check or the date the check guarantee service received payment in full for the check.

(6) The Class A licensee's employees who accept checks as described in section (1) of this rule shall refer to the identification

information of all persons who currently have an unsatisfied returned check on the returned check log prior to accepting a check from any person.

AUTHORITY: sections 313.004, 313.805 and 313.812.9, RSMo 2000. Original rule filed Jan. 27, 2006.

PUBLIC COST: This proposed rule will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed rule will cost private entities approximately five thousand one hundred dollars (\$5,100) per month in the aggregate.

NOTICE OF PUBLIC HEARING AND NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed rule with the Missouri Gaming Commission, PO Box 1847, Jefferson City, MO 65102. To be considered, comments must be received within thirty (30) days after publication of this notice in the Missouri Register. A public hearing is scheduled for 10 a.m. on April 4, 2006, in the Missouri Gaming Commission's Hearing Room, 3417 Knipp Drive, Jefferson City, Missouri.

Title: 11 - DEPARTMENT OF PUBLIC SAFETY

Division: 45 - Missouri Gaming Commission

Chapter: 8 – Accounting Records and Procedures; Audits

Type of Rulemaking: Proposed Rule

Rule Number and Name: 11 CSR 45-8.170 Check Cashing

II. SUMMARY OF FISCAL IMPACT

Estimate of the number of entities by class which would likely be affected by the adoption of the proposed rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
11	Casinos	\$5,100 per month

III. WORKSHEET

Estimated number of returned checks received monthly by outside check guarantee services for all Missouri casinos = 5100 checks

5100 x 4 minutes = 20,400 minutes per month to process returned checks from the outside guarantee services.

20,400/60= 340 hours per month to process returned checks from the outside guarantee services.

340 x \$15= \$5,100 per month to pay an accounting clerk/clerical worker to enter the information.

IV. ASSUMPTIONS

1. An employee would need to spend four minutes for each unsatisfied check that was returned to the outside check guarantee service to:
 - a. Enter the returned check information in the casino's returned check log.
 - b. Record a note in the patron's account to indicate the suspension of check cashing privileges.

- c. Enter the date the outside check guarantee service received payment for the check.
 - d. Record a note in the patron's account to reinstate check cashing privileges.
- 2. The hourly cost of an accounting clerk/clerical employee with benefits is \$15 per hour.
- 3. The outside guarantee service may pass the cost of providing the returned check information on to the casinos in the form of a service fee. The amount of this potential service fee is unknown.
- 4. A cost savings may occur because this rule would reduce the overall number of bad checks accepted at the casinos because the casinos would not be allowed to cash checks from patrons who still have checks that remain unsatisfied with the check guarantee service. The amount of this potential savings is unknown.

We estimate the cost for each manufacturer to be in the area of \$1,000 for the equipment and any required updates, which they are already required to furnish to the commission. **Title 13—DEPARTMENT OF SOCIAL SERVICES
Division 70—Division of Medical Services
Chapter 15—Hospital Program**

PROPOSED AMENDMENT

13 CSR 70-15.010 Inpatient Hospital Services Reimbursement Plan; Outpatient Hospital Services Reimbursement Methodology. The Division of Medical Services is amending section (5).

PURPOSE: This amendment clarifies the treatment of inpatient hospital rate adjustment requests for new or expanded inpatient hospital services.

(5) Administrative Actions.

(C) New, Expanded or Terminated Services. **A hospital, at times, may offer to the public new or expanded inpatient services which may require Certificate of Need (CON) approval, or may permanently terminate a service.**

1. *[A hospital, at times, may offer to the public new or expanded services for the provision of allowable inpatient services which require Certificate of Need (CON) approval or permanently terminate a service. For a] A state hospital, i.e., one owned or operated by the board of curators as provided for in Chapter 172, RSMo, or one owned or operated by the Department of Mental Health, [the state hospital] may offer new or expanded inpatient services to the public, provided it receives legislative appropriations for the project. [and the project meets the CON costs threshold. Within six (6) months after this event, the hospital must submit a request for rate reconsideration with a*

budget which shall take into consideration new, expanded or terminated services. Since a state hospital is not subject to the CON approval process, a state hospital will have six (6) months after the effective date of this amendment to file a budget for CON type projects completed after its base year cost report and will then have six (6) months after the completion of the new or expanded service is offered to the public. The budgets will be subject to desk review and audit. Upon completion of the desk review, reimbursement rates may be adjusted, if indicated. Failure to submit a request for rate reconsideration and budget within the six (6)-month period shall disqualify the hospital from receiving a rate increase. Failure to submit a request shall not prohibit the division from reducing the rate in the case of a terminated service.] A state hospital may submit a request for inpatient rate reconsideration if the project meets or exceeds a cost threshold of one (1) million dollars for capital expenditures or one (1) million dollars for major medical equipment expenditures as described in 19 CSR 60-50.300.

2. Nonstate hospitals may also offer new or expanded inpatient services to the public, and incur costs associated with the additions or expansions which may qualify for inpatient rate reconsideration requests. Such projects may require a Certificate of Need (CON). Rate reconsideration requests for projects requiring CON review must include a copy of the CON program approval. Nonstate hospitals may request inpatient rate reconsiderations for projects not requiring review by the CON program, provided each project meets or exceeds a cost threshold of one (1) million dollars for capital expenditures as described in 19 CSR 60-50.300.

3. A hospital (state or nonstate) will have six (6) months after the new or expanded service project is completed and the service is offered to the public to submit a request for inpatient rate reconsideration, along with a budget of the project's costs. The rate reconsideration request and budget will be subject to desk review and audit. Upon completion of the desk review and audit, the hospital's inpatient reimbursement rates may be adjusted, if indicated. Failure to submit a request for rate reconsideration and project budget within the six (6)-month period shall disqualify the hospital from receiving a rate increase prior to recognizing the increase through the trended cost calculation (direct Medicaid payments). Failure to submit a request shall not prohibit the division from reducing the rate in the case of a terminated service.

[2.] 4. Failure to submit a budget concerning terminated services may result in the imposition of sanctions as described in 13 CSR 70-3.030.

5. The effective date for any increase granted under this subsection shall be no earlier than the first day of the month following the Division of Medical Services' final determination on rate reconsideration.

6. Any inpatient rate reconsideration request for new, expanded, or terminated services must be submitted in writing to the Division of Medical Services and must specifically and clearly identify the issue and total dollar amount involved. The total dollar amount must be supported by generally accepted accounting principles. The hospital shall demonstrate the adjustment is necessary, proper and consistent with efficient and economical delivery of covered patient care services. The hospital will be notified in writing of the agency's decision within sixty (60) days of receipt of the hospital's written request or within sixty (60) days of receipt of any additional documentation or clarification which may be required, whichever is later. Failure to submit requested information within the sixty (60)-day period shall be grounds for denial of the request. If the state does not respond within the sixty (60)-day period, the request shall be deemed denied.

[3.] 7. Rate adjustments due to new or expanded services will be determined as total allowable project cost (i.e., the sum of annual depreciation, annualized interest expense and annual additional operating costs) multiplied by the ratio of total inpatient costs (less SNF and swing bed cost) to total hospital cost as submitted on the most recent cost report filed with the agency as of the review date divided by total acute care patient days including all special care units and nursery, but excluding swing bed days.

[4.] 8. Total acute care patient days (excluding nursery and swing bed days) must be at least sixty percent (60%) of total possible bed days. Total possible bed days will be determined using the number of licensed beds times three hundred sixty-five (365) days. If the days, including neonatal units, are less than sixty percent (60%), the sixty percent (60%) number plus newborn days will be used to determine the rate increase. This computation will apply to capital costs only.

9. Major medical equipment costs included in rate reconsideration requests shall not include costs to replace current major medical equipment if the replacement does not result in new or expanded inpatient services. The replacement of inoperative or obsolete major medical equipment, by itself, does not qualify for rate reconsideration, even if the new equipment costs at least one (1) million dollars.

Title 18—PUBLIC DEFENDER COMMISSION

Division 10—Office of State Public Defender

Chapter 3—Guidelines for the Determination of [Indigency] Indigence

PROPOSED AMENDMENT

18 CSR 10-3.010 Guidelines for the Determination of [Indigency] Indigence. The commission is changing the chapter title, the rule title, amending the purpose section, adding a new section (1) and amending and renumbering old sections (1)–(3).

PURPOSE: This amendment allows the State Public Defender greater discretion in finding eligibility for public defender representation for individuals accused of crimes.

PURPOSE: This rule establishes the guidelines for the determination of [indigency] indigence and prescribes a form for that purpose.

(1) Eligibility for Representation.

(A) A person shall be considered eligible for representation when it appears from all the circumstances of the case including his/her ability to make bond, his/her income and the number of persons dependent on him/her for support that the person does not have the means at his/her disposal or available to him/her to obtain counsel in his/her behalf and is indigent as hereafter determined.

(B) The determination of indigence of any person seeking the services of the State Public Defender System shall be made by the defender or anyone serving under him/her at any stage of the proceeding. Upon motion by either party, the court in which the case is pending shall have authority to determine whether the services of the public defender may be utilized by the defendant. Upon the court's finding that the defendant is not indigent, the public defender shall no longer represent the defendant.

[[1]] (2) Public Assistance, Unemployment Compensation and Income Maintenance Payments.

(A) Unemployed defendants receiving public assistance are eligible for defense services provided by the Office of State Public Defender regardless of the amount of the benefits. If the defendant is receiving public assistance and has a part-time job, or other asset/s, the weekly amount of benefits and the additional source of income should be added together and compared to the maximum Qualifying Income Scale to Determine *[Indigency]* Indigence.

(B) If a defendant is receiving disability payments, pension, unemployment compensation or Social Security, this is considered income and the amount of the payment must be considered.

[[2]] (3) Maximum Qualifying Income Scale.

(A) A defendant may be considered indigent if his/her gross pay and other sources of income do not exceed the federal poverty guideline as issued in the *Federal Register* by the U.S. Department of Health and Human Services.

(B) When making the financial determination, the following factors should be taken into consideration:

1. **Debts and Expenses**—Debts should be taken into consideration to the extent that *[payments reduce the take-home pay of the defendant.] they are reasonable and necessary. Debts [caused by hospital bills, taxes, fines, child support and alimony are allowable only if actual payments on debts are being made.] are considered only if actual payments are being made;*

[2. Bond—If the defendant has been released on bail on any case in the amount of five thousand dollars (\$5,000) or more, a presumption is created that the defendant is not indigent and the ability of the defendant to meet the bail must be given consideration;]

[3.] 2. Spouse's Income—The spouse's [income should be considered if the spouse is employed and supports the defendant. The income shall also be considered if they share the household expenses;] financial status shall be considered unless the spouse is the alleged victim.

[4.] 3. Parent's Income—The parent's income should be considered if they support the defendant and the defendant is under eighteen (18) years of age unless a parent is an alleged victim of the charged offense. Defendants eighteen (18) years or older shall be considered independent from family income unless they are full-time students or are dependent upon their parents or when [the] one or both parents [or a relative] post bond;

[5. Mortgage—If the defendant owns or is buying a home, the defendant's equity must be determined. If defendant's equity exceeds ten thousand dollars (\$10,000), the defendant would not qualify for a public defender; and]

[6.] 4. Assets—[Unless the defendant is charged with a Class A felony, cash in excess of one thousand dollars

(\$1,000) creates a presumption of non-indigency.] If the person owns or is buying a home, the equity must be determined and considered on the question of indigence. Bank accounts, stocks, bonds, jewelry, equity in insurance and any other financial assets must be considered. [All vehicles are assets and must also be considered. If the total value of the asset(s) is more than two thousand dollars (\$2,000), the defendant is presumed not to be indigent.]

[[3]] (4) Discretionary Aspects of Determining *[Indigency]* Indigence.

(A) The previously mentioned financial criteria are to be applied in all cases and considered with the probable expense and burden of defending the case. If a person is determined to be eligible for the services provided by the State Public Defender System and if, at the time such determination is made, s/he is able to provide a limited cash contribution toward the cost of representation without imposing a substantial hardship upon himself/herself or his/her dependents, such contribution shall be required as a condition of his/her representation by the State Public Defender System. If at any time, either during or after the disposition of his/her case, such defendant becomes financially able to meet all or some part of the cost of services rendered to him/her, s/he shall be required to reimburse the commission in such amounts as s/he can reasonably pay, either by a single payment or by installments of reasonable amounts, in accordance with a schedule of charges for public defender services prepared by the commission;

[[B] If a defendant is found not indigent and not eligible for a public defender, s/he has the right to appeal that decision to the court;] and

[[C]] (B) An individual requesting public defender service shall complete and sign an Application for Public Defender Services.

AUTHORITY: sections 600.017(10), 600.086 and 600.090, RSMo 2000. Original rule filed Nov. 12, 1985, effective Feb. 13, 1986. Amended: Filed Feb. 14, 2002, effective Aug. 30, 2002. Amended: Filed Jan. 20, 2006.

PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.

PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.

*NOTICE TO SUBMIT COMMENTS: Anyone may file a statement in support of or in opposition to this proposed amendment with the State Public Defender Commission, 3402 Buttonwood, Columbia, Missouri 65201, attn: Daniel Gralike. To be considered, comments must be received within thirty (30) days after publication of this notice in the *Missouri Register*. No public hearing is scheduled.*

ORDER OF RULEMAKING

By the authority vested in the State Board of Nursing under sections 335.017 and 335.036, RSMo 2000, the board adopts a rule as follows:

4 CSR 200-6.030 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 3, 2005 (30 MoReg 2024–2025). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Fourteen (14) comments were received.

COMMENT: The board received one (1) comment from Gloria Carlile, Texas County Technical Institute. Ms. Carlile congratulated the board on an outstanding undertaking with rewriting the Intravenous Therapy Rules stating that one (1) of the issues with the existing rule was the lack of specificity. Ms. Carlile commented that having tasks delineated for both the non-IV-Certified and the IV-Certified Qualified licensed practical nurse (LPN) is much less confusing than the existing rule.

RESPONSE: The board thanks Ms. Carlile for her comments.

COMMENT: The board received comments from Randall Blake, Missouri State Association of Licensed Practical Nurses, Michelle Crum, Ozark Technical Community College, Jeff M. Hawkins, St. John's Hospital, Barbara Marcus, and Lynne Ott, Fitzgibbon's Medical Center. The comments were in regard to subsection (6)(E) "Administer continuous or intermittent fluid infusions via electronic infusion pumps and controllers, which includes assembling and programming of the electronic infusion pump or controller." The comments centered around an assumption that the use of pumps could not be included in the teaching of an IV-therapy course since the statement is in the section indicating that additional education and experience would be necessary for an IV-Certified LPN to perform these functions.

RESPONSE AND EXPLANATION OF CHANGE: The intent of the requirement is to emphasize that employers need to verify and document that the IV-Certified LPN knows how to properly use the equipment within a particular facility. The board determined that the

situation could be resolved by moving the statement to section (5) making it (5)(H) and eliminating it as (6)(E).

COMMENT: The board received comments from Randall Blake, President, Missouri State Association of Licensed Practical Nurses, Gloria Carlile, Texas County Technical Institute, Michelle Crum, Ozark Technical Community College, Jeff M. Hawkins, St. John's Hospital, Barbara Marcus, and Lynne Ott, Fitzgibbon's Medical Center. The comments were in regard to 4 CSR 200-6.030(6)(D) "Administer premixed drugs that will infuse over a minimum of thirty (30) minutes via mechanical infusion devices, including, but not limited to, syringe pumps and disposable elastomeric devices." The central issue again was the need for additional education by the IV-Certified LPN before being allowed to perform this function.

RESPONSE AND EXPLANATION OF CHANGE: The board felt that by moving (6)(E) and making it (5)(H) that this removed the objection to (6)(D) and the intent was more clear.

COMMENT: The board received comments from Michelle Crum, Ozark Technical Community College, Barbara Marcus, and Lynne Ott, Fitzgibbon's Medical Center. The comments were in regard to subsection (7)(A) which lists the functions that graduate and licensed practical nurses shall NOT perform. Subsection (7)(A) states "Administer anti-neoplastic drugs, commonly referred to as chemotherapy, via any intravenous infusion treatment modality;" The primary concern was that if an LPN observes a patient experiencing an adverse reaction or a complication while receiving an intravenous chemotherapeutic agent, the LPN should be permitted to stop the flow of the infusion and immediately report the incident to a registered professional nurse (RN) for assessment of the situation. **RESPONSE AND EXPLANATION OF CHANGE:** The board voted to change the statement at subsection (7)(A).

COMMENT: The board received a comment from Randall Blake, Missouri State Association of Licensed Practical Nurses, stating that the proposed IV-therapy rules do not address the LPN's role in neonate IV-therapy. The current rule allows an IV-Certified LPN who has had additional education and experience to "participate in IV-therapy with neonates." Members of both the expanded and smaller task force of the board were in agreement that LPNs should not have any role in IV-treatment modalities for neonates due to the changing and precarious status of neonates and had not addressed this function in the proposed rules.

RESPONSE AND EXPLANATION OF CHANGE: The board agreed with the task force members that very few, if any, LPNs are employed in Neonatal Intensive Care Units. The board voted to add a statement to section (7) which addresses functions NOT to be performed by graduate and licensed practical nurses.

4 CSR 200-6.030 Intravenous Infusion Treatment Administration by Qualified Practical Nurses; Supervision by a Registered Professional Nurse

(5) In addition to the functions and duties set forth in section (4), a graduate practical nurse who graduated after February 28, 1999 from a generic practical nursing program approved by the board, and IV-Certified licensed practical nurses who have documented competency verification by the individual's employer, may:

(A) Calculate the flow of intravenous parenteral fluid infusions including total parenteral nutrition, peripheral parenteral nutrition, blood, and blood products;

(B) Initiate peripheral venous access sites using devices that do not exceed three inches (3") in length, excluding mid-line catheters;

(C) Administer parenteral intravenous fluid infusions including total parenteral nutrition and peripheral parenteral nutrition through established, patent peripheral venous lines and central venous lines;

(D) Change peripheral venous administration set tubings and dressings;

(E) Administer premixed drugs and solutions through established, patent peripheral and central venous lines either by continuous infusion or intermittent intravenous piggyback methods;

(F) Maintain the patency of "locked" peripheral and central venous catheters with saline and/or heparin flush solutions;

(G) Administer packaged drug systems containing diluent and drug through established, patent peripheral and central venous lines; and

(H) Administer continuous or intermittent parenteral fluid infusions via electronic infusion pumps and controllers, which includes assembling and programming of the electronic infusion pump or controller.

(6) In addition to the functions and duties set forth in sections (4) and (5), and with additional individualized education and experience that includes documented competency verification by the individual's employer, IV-Certified licensed practical nurses may:

(A) Change central venous line administration set tubings and site dressings;

(B) Obtain blood specimens for laboratory testing from established central venous catheters, which includes implanted vascular access port devices that have already been accessed;

(C) Administer premixed pain medications via patient controlled analgesia pump (PCA), which includes assembling and programming of the pump; and

(D) Administer premixed drugs that will infuse over a minimum of thirty (30) minutes via mechanical infusion devices, including, but not limited to, syringe pumps and disposable elastomeric devices.

(7) Graduate and licensed practical nurses shall NOT, under any condition, perform the following functions or duties:

(A) Administer anti-neoplastic drugs, commonly referred to as chemotherapy, via any intravenous infusion treatment modality. However, the qualified practical nurse may stop the flow of an infusion if an adverse reaction or complication is observed and immediately notify a RN to assess the situation;

(B) Begin the initial or sequential administration of a transfusion of whole blood or blood product including, but not limited to, serum albumin;

(C) Access the port reservoir of a central venous implanted vascular access port device;

(D) Perform an intravenous admixture in which a syringe/needle is used to add drug(s) to a parenteral fluid container, prior to the administration of the infusion;

(E) Add drug(s) to the fluid container of an existing intravenous infusion;

(F) Add drug(s) to an existing volume control set chamber;

(G) Administer drug(s) via the intravenous push or intravenous bolus mode of delivery except when life-threatening circumstances require such administration;

(H) Remove a mid-line catheter or any type of central venous catheter; and

(I) Participate in any intravenous infusion treatment modality involving neonates.

ORDER OF RULEMAKING

By the authority vested in the State Board of Nursing under sections 335.017 and 335.036, RSMo 2000, the board adopts a rule as follows:

4 CSR 200-6.040 Venous Access and Intravenous Infusion Treatment Modalities Course Requirements is **adopted**.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on October 3, 2005 (30 MoReg 2025-2031). No changes have been made to the text of the proposed rule, so it is not reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: Five (5) comments were received.

COMMENT: The board received comments from Gloria Carlile, Texas County Technical Institute and Billye McCrary, St. Francis Medical Center regarding subsection (3)(C) "A course shall, at a minimum, consist of 1. Thirty (30) hours of classroom and skills laboratory instruction or its equivalent (e.g., faculty-student interactive study." The concern was that there is difficulty in completing the necessary classroom and skills laboratory instruction in forty (40) hours as required by the current rules.

RESPONSE: The board decided that the proposed rule does not prohibit course providers from having more than thirty (30) hours in the course they present. The intent of decreasing the number of required classroom and skills laboratory hours was to facilitate the presentation of a course using various formats such as self-study modules, on line didactic, etc. The proposed rules require eight (8) hours of supervised clinical practice just as the current rules do. Therefore, the board made no changes to the text of the proposed rule.

COMMENT: The board received comments from Angie Cosgrove and Diane Davis, Interlock Pharmacy Systems, Inc., Barbara Marcus, and Lynne Ott, Fitzgibbon's Medical Center. The statement was interpreted by Ms. Cosgrove and Ms. Davis to mean that a course participant had to have a successful "stick" or access on the first attempt. The comment was in regard to subsection (6)(C) "Perform at least one (1) successful peripheral venous access and initiate an intravenous infusion treatment modality on an individual." This statement is in the section addressing requirements for successful completion of an intravenous infusion treatment modalities course.

RESPONSE: The intent of the rule is that a course participant must perform both functions successfully at least once, access a vein and insert a device and start the flow of an infusion. The rule would not require that both functions have to be successfully performed on the same patient/individual. It is recognized that any nurse may not be able to successfully access a vein on the first or even second attempt. Therefore, the board made no changes to the text of the rule.

Following is the Text of Rules Under Consideration Submitted by the Department of Mental Health

Title 9—DEPARTMENT OF MENTAL HEALTH Division 45—Division of Mental Retardation and Developmental Disabilities Chapter 5—Standards for Community Based Services

RULE UNDER CONSIDERATION

9 CSR 45-5.120 Fire Safety for Individualized Supported Living and Residential Habilitation for One (1) to Three (3) People

PURPOSE: This rule establishes fire safety requirements for individualized supported living and residential habilitation homes providing support for one (1) to three (3) people funded through the Medicaid Home and Community Based Waiver.

(1) General Requirements.

(A) All individualized supported living and residential habilitation homes providing support for one (1) to three (3) people shall develop and have available for review at the home an evacuation plan in the case of fire or natural disaster. Each plan shall include evacuation routes and, in the case of fire, a pre-determined location outside of the home to which individuals are required to evacuate in order to avoid the fire.

(B) In homes where one (1) or more individuals receive twenty-four (24) hour support, the staff shall conduct at least three (3) fire drills and one (1) disaster drill annually. The required drills shall be conducted at least once per quarter, with a minimum of one drill per year conducted during the overnight hours when individuals may be sleeping. Overnight drills shall take into consideration the sleep patterns of individuals and be as unobtrusive to those sleep patterns as possible. If an individual needs to be carried out and participation in drills would put him/her at risk, staff may practice drills by substituting someone else for the individual. Such a drill shall be designed to be specific to the individual.

(C) In homes where all individuals receive less than twenty-four (24) hour support, the staff shall conduct at least one (1) fire drill and one (1) disaster drill annually. The required drills shall be conducted at least once every six (6) months.

(D) The drills required herein shall be conducted as follows:

1. Drills shall simulate an actual fire or disaster condition;
2. No one in the home shall obtain clothing or personal effects after the alarm has sounded;
3. Everyone shall remain at the evacuation site until the recall is issued or until they are dismissed;
4. The staff shall maintain a written record at the home of the date, type of drill, time required to evacuate the building and number of individuals present during the drill; and
5. Fire and disaster drills may be postponed during severe weather, but shall be rescheduled as soon as practical.

(E) House numbers shall be plainly visible from the street in case of emergency.

(F) Day-to-day fire safety considerations shall be observed. This includes but is not limited to: assuring exits are not blocked; safe storage of combustible materials; home is free from dangerous clutter that poses a fire hazard, or inhibits escape; extension cords shall be insulated, or power strips shall be used.

(G) Stairways, walks, ramps, and porches shall be kept free of ice and snow.

(H) At least one (1) portable and operable flashlight shall be located on each level of the home and accessible to staff and/or individuals in the event of power failure.

(I) The provider of residential services shall notify the nearest fire department that the facility is in operation and have required signed documentation (fire department notification form) on file at the home if any individual in the home has any difficulty that would impede evacuation during a fire, e.g. use of wheelchair.

(J) The provider shall, as soon as practical, report any fire in the home to the fire safety authority having jurisdiction and to the local regional center director.

(K) Homes served by a volunteer or membership fire department shall be a member in good standing with the fire department. A copy of the membership or receipt for membership shall be on file at the home and available for review.

(L) Homes shall appear to be safe and sanitary and have met local fire and safety codes, if applicable. This can be verified by viewing a copy, provided by the landlord, if applicable, inspections and/or licenses, or by requesting an inspection by local city/county inspector, or fire department, if available.

(M) The Regional Center may make additional requirements that provide adequate life safety protection if it is determined that the safety of individuals is endangered.

(2) Means of Escape Requirements.

(A) Each living area and sleeping room shall have two (2) means of escape.

(B) Doors and windows shall not be locked from the outside or in any manner that would prevent evacuation when the building is occupied. The window(s) designated as a means of escape shall be operable from the inside without the use of tools and shall provide a clear opening to allow rescue by fire department workers, if necessary. The windows shall be accessible by the fire department and shall open into an area having access to a public way. (Exception: Existing structures approved prior to the date of this rule may submit an alternate plan of escape, (ex: ladders), or approval of the fire department having jurisdiction.)

(C) No dead-bolt locks that require a key to unlock the lock from the inside shall be allowed.

(D) All ramps shall have a slip resistant surface and shall be designed so that water or snow shall not accumulate on their surface.

(3) Interior Finish.

(A) Interior finish shall be approved by the local fire department or local authorities if applicable to assure local requirements are met.

(4) Detection, Alarms, Extinguishment.

(A) One (1) A-B-C type fire extinguisher shall be located in or near the kitchen. Additional fire extinguishers shall be placed on each level of the home. Each fire extinguisher shall have either an expiration date or preventive maintenance tag, and indicator of charge.

(B) Fire extinguishers shall be maintained according to the manufacturer's instructions and be in good operating condition.

(C) Smoke detectors shall be installed in all hallways giving access to sleeping rooms. Smoke detectors shall be in good operating condition and functional. All smoke detectors that are ten (10) years old or older shall be replaced with new smoke detectors.

(D) Homes using appliances that pose a potential carbon monoxide risk (i.e. gas fired stoves, water heaters, and furnaces, or homes with attached garages) shall install a carbon monoxide detector that is in good operating condition, and functional.

1. If an elevated carbon monoxide level is detected, the home shall have all gas-fired appliances checked by the appropriate local utility company to identify the source of the carbon monoxide, and must have documentation verifying that the source was checked by a licensed heating and cooling company and is in safe working order. The regional center shall be notified within forty-eight (48) hours.

2. If a level of carbon monoxide is determined that endangers the occupants, i.e. persons are experiencing symptoms of carbon monoxide poisoning, the provider shall take measures necessary to protect the occupants. This may include evacuation of the building. They shall contact the local fire department to inspect for safety, and re-enter the home only when it is aired out, and the problem corrected. The provider shall obtain and have on file at the home, documentation from a licensed heating and cooling company that the determined source is in safe working order. The regional center shall be notified as soon as practical, once people are safe and the appropriate emergency action has been taken.

(5) Heating, Ventilating, Air Conditioning, and Mechanical Equipment.

(A) Un-vented fuel-fired room heaters, portable electric space heaters and floor furnaces shall not be permitted for use.

(B) No home shall be allowed to heat the home with a wood burning stove, fireplace, or wood burning furnace located inside of the structure as a primary source of heat. Fireplaces need to be approved for use by the local fire department. Written approval by the local fire department must be on file in the home.

(C) Clothes dryers shall be vented and maintained properly.

(6) Equivalency Concepts. Nothing in this rule is intended to prevent the use of systems, methods, or devices of equivalent or superior quality, strength, fire resistance, effectiveness, durability, and safety as alternatives.

SUPPLEMENTARY INFORMATION:

Public Participation

If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard.

Background

The individuals listed in this notice have recently filed applications requesting MoDOT to issue SPE Certificates to exempt them from the physical qualification requirements relating to vision in 49 CFR 391.41(b)(10), or to diabetes in 49 CFR 391.41(b)(3), which otherwise apply to drivers of CMVs in Missouri intrastate commerce.

Under section 622.555, *Missouri Revised Statutes* (RSMo) Supp. 2005, MoDOT may issue a Skill Performance Evaluation Certificate, for not more than a two (2)-year period, if it finds that the applicant has the ability, while operating CMVs, to maintain a level of safety that is equivalent to or greater than the driver qualification standards of 49 CFR 391.41. Upon application, MoDOT may renew an exemption upon expiration.

Accordingly, the agency will evaluate the qualifications of each applicant to determine whether issuing a SPE Certificate will comply with the statutory requirements and will achieve the required level of safety. If granted, the SPE Certificate is only applicable to intrastate transportation wholly within Missouri.
